I feel the same. We mentioned loosely end of the calendar year, maybe bleeding into the new year during our last conversation. I think this gives the top end of that.
Maybe we could leave as "No later than January 15," with the hopes that we can do it before then.

We're gearing up to check-in with NWEA next Tuesday. One central purpose of that check-in is to tell them what length schedule extension we need. Are we asking for a schedule extension until January 31, 2015? I think we need to be clear on what we want. January 2015 has been my operating assumption.

Thanks.
